ABOUT US

CET is a forward-thinking provider of power and emergency electrical solutions for businesses, institutions, and critical infrastructure, holding over a decade of experience. Specializing in innovative and sustainable power solutions, CET provides UPS systems, generators, batteries, data center solutions, and more across diverse fields.

CORE VALUES

RELIABILITY

We design and support power solutions with one goal: helping clients keep essential operations protected and running.

INNOVATION

We stay aligned with modern power technologies, product developments, and practical engineering methods to deliver better solutions.

CUSTOM SOLUTIONS

Every facility has different loads, risks, space limitations, and operating requirements. CET builds solutions around the client's actual needs.

CET | CRITICAL ENERGY TECHNOLOGIES

RELIABLE POWER ON DEMAND

www.critical-energy.net

WHY CHOOSE CET?

Mission

Technical needs are not one-size-fits-all. At CET, reliable, customized solutions are provided to help businesses, institutions, and critical infrastructure operate with confidence, even when power conditions are unstable.

CET | CRITICAL ENERGY TECHNOLOGIES

RELIABLE POWER ON DEMAND

WHY CHOOSE CET?

Vision

Our vision is to become a trusted regional name in critical power solutions. CET aims to achieve this by providing technical knowledge, reliable products, custom engineering, and long-term client support. Once a client of CET, always a lifelong partner; operations stay protected and uninterrupted.

WHO WE SERVE

- TELECOM
- FINANCIAL INSTITUTIONS
- EDUCATIONAL FACILITIES
- MEDICAL FACILITIES
- INDUSTRIAL APPLICATIONS
- HOSPITALITY
- GOVERNMENT & MILITARY

OUR SOLUTIONS

CRITICAL POWER SUPPLY SOLUTIONS:

- Uninterruptible Power Supply (UPS).
- Diesel & Gas Generators Solutions.
- Battery & DC Systems (NiCd, VRLA & Li-ion).
- Central Power Supply Systems
- Rectifiers & Chargers.
- Frequency Convertors.
- Voltage Regulators.
- Harmonic Filters & Capacitor Banks.
- Isolated Power Supply (IPS)

DATA CENTER SOLUTIONS:

- Power Infrastructure (Modular UPS, ATS, STS & PDU).
- Energy Storage & Backup.
- Cooling & Environment Control.
- Data Center Build & Design.
- Monitoring & Management.

RENTAL POWER EQUIPMENT:

- Rental Generators.
- Temporary UPS & Battery Systems.
- Load Banks & Test Equipment.
- Cooling Systems.
- Custom Engineered Solutions.

OUR SERVICES

At CET, We supports every stage of your power project::

1. **Emergency Power Solutions**
2. **Electrical Equipment Procurement**
3. **Installation & Commissioning**
4. **After-Sale Support & Maintenance**
5. **Engineering Services**
6. **Consulting & Project Management**

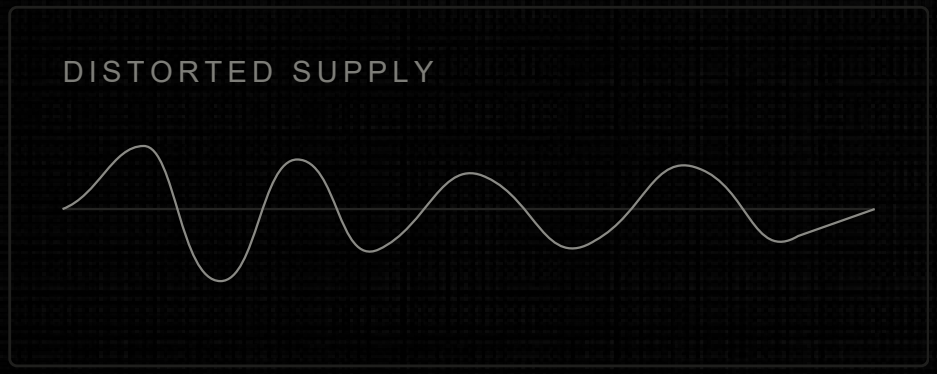
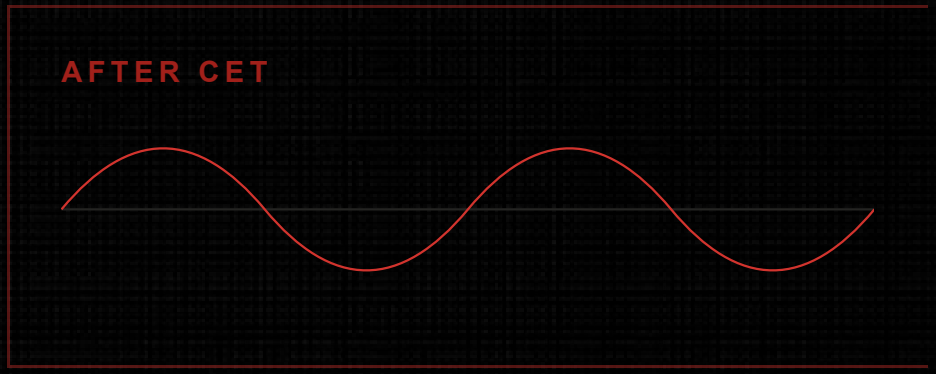
POWER QUALITY

Clean power, not just present power.





Rectifiers & chargers
Industrial DC for telecom, switchgear & control — sized to load and runtime.

Converters & regulators
Static & rotary conversion, automatic regulation against sags, surges & brownouts.

Harmonic filters & banks
Power-factor correction & harmonic mitigation — lower penalties, less heat.

PROJECTS

CET | CRITICAL ENERGY TECHNOLOGIES

RELIABLE POWER ON DEMAND

www.critical-energy.net

KEY PROJECTS

Pharma Primes

R&D LAB CONTINUITY

Multiple 6 kVA single-phase and 10 kVA three-phase UPS systems supporting critical lab operations at one of Jordan's most advanced pharmaceutical R&D labs.

National Center for Diabetes

LAB BACKUP POWER

A 60 kVA Legrand UPS providing backup for Mindray modular testing equipment — protecting continuous diagnostic operations.

Hospitality & commercial

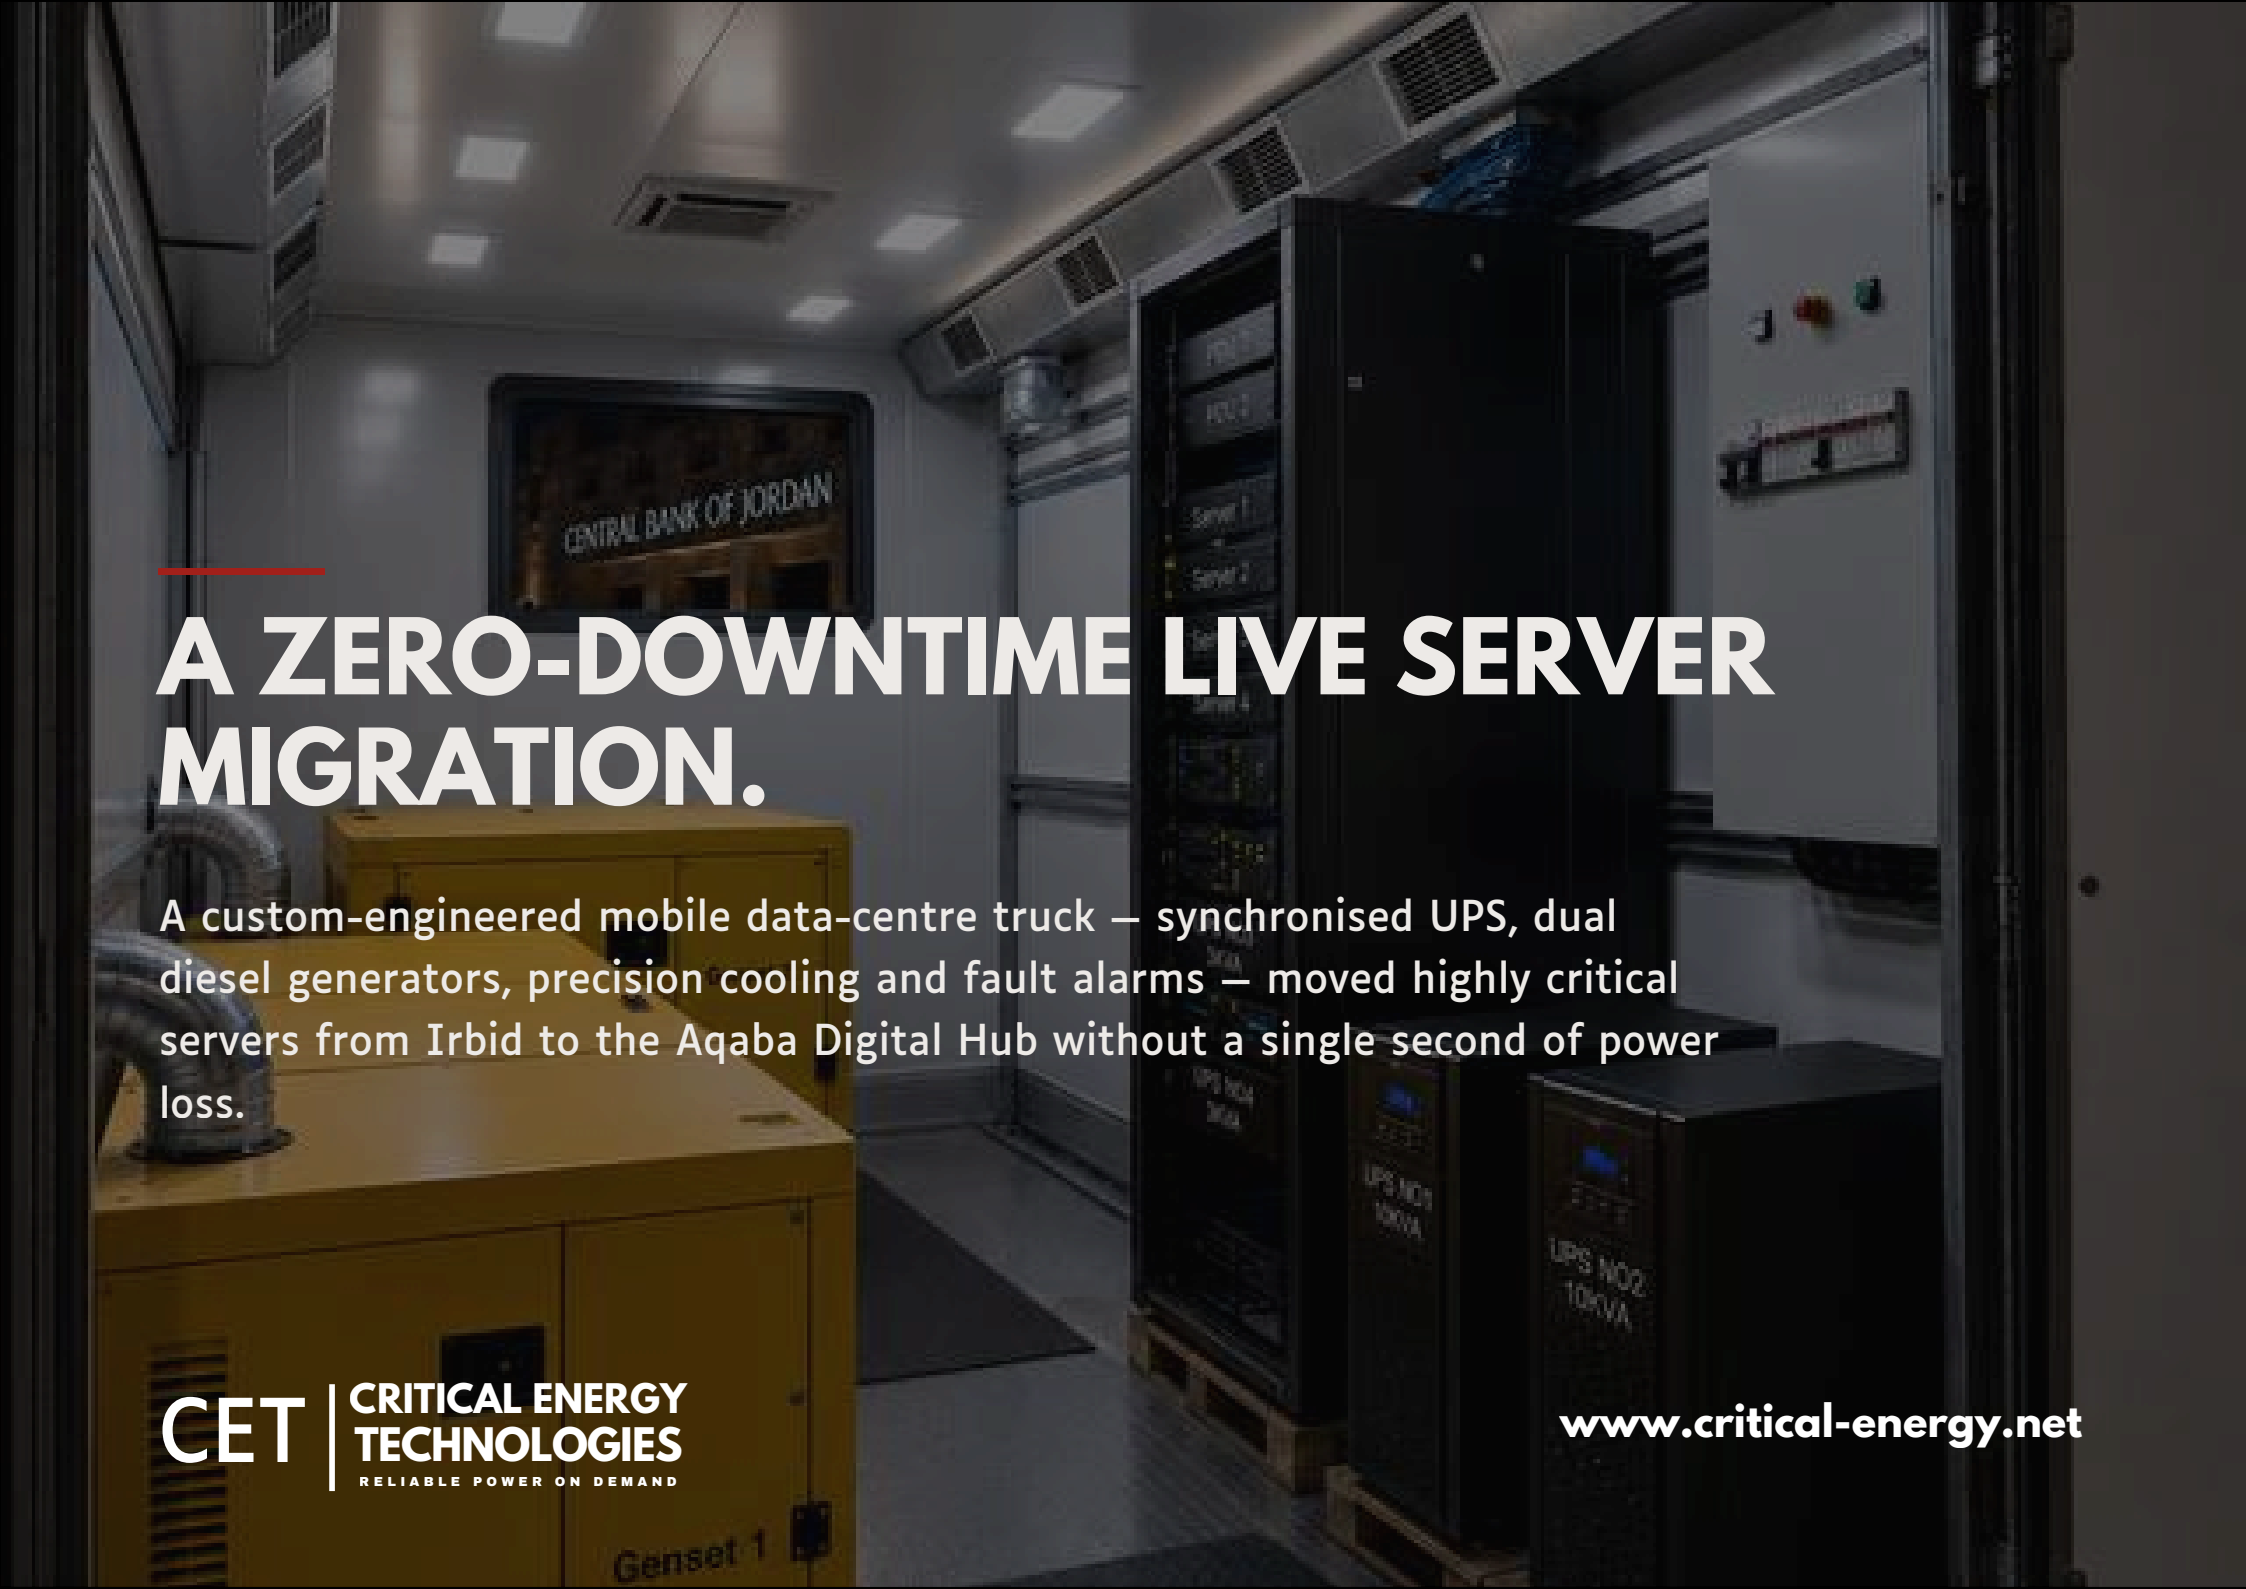
UPS & GENERATORS

Backup power and power-quality work across St. Regis, W Hotel and Seven Roses — protecting guest service and building systems.

Infrastructure & utilities

DC & STANDBY POWER

Standby and DC systems for utility-scale sites including As-Samra Wastewater Treatment Plant.



A ZERO-DOWNTIME LIVE SERVER MIGRATION.

A custom-engineered mobile data-centre truck — synchronised UPS, dual diesel generators, precision cooling and fault alarms — moved highly critical servers from Irbid to the Aqaba Digital Hub without a single second of power loss.

CET | CRITICAL ENERGY TECHNOLOGIES
RELIABLE POWER ON DEMAND

www.critical-energy.net

POWERING JORDAN'S ROYAL WEDDING.

Critical power for OB vans at Zahran and Husseini Palaces — 4× 250 kVA synchronised diesel generators delivering uninterrupted supply across a 10-day live broadcast.

MAINTENANCE PLANS

PLANS START FROM **10 JOD** / mo · per device · billed annually

Essential

UPS, generator or any critical power system

10 JOD / mo

2+ DEVICES

- UPS, generators & emergency power
- Business-hours support
- One preventive site visit / year
- Written condition report

Standard

POPULAR

Extra preventive & emergency cover

20 JOD / mo

3+ DEVICES

- Everything in Essential
- Two preventive visits / year
- One emergency site visit / year
- Priority scheduling & response

Professional

For multi-device sites that can'tgo dark

30 JOD / mo

5+ DEVICES

- Everything in Standard
- Three preventive + two emergency visits
- Free SNMP card per UPS — 24/7 email alerts
- Generators: free oil & filter change / year
